

Chem-Art: Element Re-Design Research

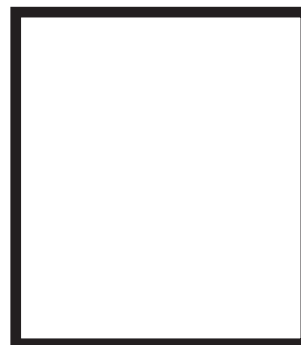

due:

Name: _____

My element:

Sketch the Periodic Table version here:

Sketch its atomic structure:

My element was discovered by:

Three ways it was used in throughout the course of history:

Create a mindmap of the many ways your element is used:

Consider the information you just gathered on your element. What are three key facts that help you understand the element?

Think back on your sketchbook assignments. When you illustrate an idea, it can help it stick in your mind. What images could help someone remember the important facts listed above? Sketch an idea for each fact. Feel free to include items from history or things in which you element is used.
